TANIA DEOL; PAUL RODRIGUES

It's always interesting to see how even the most common materials, when used with a little ingenuity, allow you to create a piece, which besides being stunning, affords you the satisfaction of a job well done. So is the case with the Art Deco-inspired rosewood cabinet by Tania, finished with mirror and glass. This is also why we cherish the simple pleasures of everyday life, including our favourite spot around the home. Paul gives us another reason with his snug Sunday Armchair, which beckons you to spend many a lazy afternoon.
