## Red Blue & Yellow

The furniture store, Red Blue & Yellow at Mumbai showcases its new collection where clean lines blend into graceful curves, in minimalist designs and earthy colours.

The look of the store is contemporary in keeping with the furniture, which keeps changing with the seasons.

A huge water body at the entrance with seasonal flowers and floating candles welcomes you as you enter the store. High ceilings and split levels help create smaller individual display areas.

## FURNITURE

The look of the store is contemporary in keeping with the furniture, which keeps changing with the seasons.

# FURNITURE

While the style of the furniture in the new collection is decidedly contemporary, the designs will suit any interior, whether classic or modern. The collection ranges from bedroom sets, consoles, dining tables and runners to complete living room solutions in the form of sofas, armchairs and chaise longues. 

The designs will suit any interior whether classic or contemporary.
